Title
Discussion of updates regarding Emergency Management.

Executive Summary
The City Council will discuss elementary emergency preparedness.

Body
Basic discussion of emergency preparedness through training and exercises. To address the coordination between staff and council during an event.

Background
With the changes the city has experienced with updates of the emergency management plan, coordinators and newer facilities, we are focusing on bringing both staff and council together to present goals and objectives of the current direction the city of Sachse is taking. Now with a new emergency operation center and equipment provided we have a clearer objective to bring coordination and training together in preparedness for an event.

Required if serving as a Public Information Officer	PIO
Required if position has “overall emergency management responsibilities”	EM

¹ This guidance was compiled from NIMS guidance documents and other FEMA materials. These documents do not clearly delineate which personnel are required to take specific training courses. The recommendations are based upon information contained in the target audience description in the course summaries.

² Course summary within the *Five-Year NIMS Training Plan* states: “It is incumbent upon Federal, State, tribal, and local emergency management/response personnel to determine who within their organizations requires [this] training, based upon local incident management organizational planning.” TDEM’s NIMS 2010 Compliance Letter, dated 6/30/10, states: “Each jurisdiction that has adopted NIMS is responsible for determining the NIMS training that staff members should complete.” Hence, the extension of this category to IS-703 and IS-704.

³ Texas Division of Emergency Management guidance, dated 6/30/10, limits this to PIOs “who have successfully completed G-290 – Basic Public Information training provided by the Texas Division of Emergency Management (TDEM).”

⁴ Guidance on the EMI website (<http://training.fema.gov/EMIWeb/IS/is704.asp>) clarifies that the primary audience is “individuals with emergency management responsibilities. . .” This is narrower than the guidance in the *Five-Year NIMS Training Plan*.

Senior Public Officials Workshop

Welcome to the Senior Public Officials Training Page. Here you will find information on the courses offered over the past year regarding Senior Public Officials training.

The workshop was designed to familiarize Senior Public Officials on their roles and responsibilities before, during, and after an emergency and to provide instruction on Public Policy, Emergency Management Fundamentals, Public Information, and the Incident Command System (ICS).

Selection Criteria: The target audience for this workshop was Elected and Appointed Public Officials in Washington State.

The Senior Public Official's are defined as:

- Governor
- State Senator
- State Representative
- State Agency Director
- Mayor
- County Commissioner
- County/City Council Member
- Elected Executive
- County Sheriffs
- Assessors
- Prosecutors

Title

Discuss information on medical authority with the City of Garland.

Executive Summary

The City Council will discuss the health services for the City of Sachse now provided by the City of Garland Health Department.

Body

To discuss the health services for the City of Sachse now provided by the City of Garland Health Department

Background

The past medical control for the City of Sachse has been Dallas County Health Services. The increasing growth of Sachse which now includes two counties, the ability to provide public health care for the city started getting complicated. Now under one authority we have the ability to serve our citizens throughout the city for communicable disease investigations and control for all vaccine preventable disease and interic illnesses. This protection even includes the school children from the two school districts as long as they are in Sachse.

Policy Considerations

Changes have already occurred by council's approval for this agreement.

Budgetary Considerations

When this was agreed upon during the budget year, the fire department budget supported the fee of \$1,200.00. Next year cost will be \$1,200.
