List qualifications you feel make you a good candidate for this position: Personal and professional experiences make me a strong candidate for the Sachse Economic Development Board position and I'm looking forward to the opportunity to help the community I live in, grow and prosper in the future. Sachse represents the perfect opportunity for growth and development and is a very attractive community from an entrepreneurial perspective. My professional experiences all center around connections and creating positive outcomes for all parties involved. I firmly believe the opportunity in Sachse is one unmatched by any other community in the Dallas Metroplex. I take my role as a State Farm Agent with a sense of pride and am thrilled to be a new entrepreneur in Sachse. In late 2014/early 2015, upon visiting Sachse, analyzing the market, and understanding the dynamics at play in the Metroplex, I could not wait to build a business plan for my State Farm Agency. With a lot of hard work and a ton of fun, I proposed my business plan to State Farm and was approved to build my own agency in April 2014. The second half of 2014 was spent preparing myself and my team for our opening in January. I am delighted to call Sachse home and build my business with the goal of being a community pillar. I have had the pleasure of being part of State Farm's organization for 13 years now. In my prior role, I served as the primary business manager responsible for the protection and integrity of customer

	<p>information within the company. The information technology projects I sponsored ranged in size from \$25,000 to \$20M with the purpose of making our customer data more accessible by our agents and ultimately making customer interactions stronger. In 2010, I took a leadership role on the State Farm Innovation Team and led a team of college interns at the University of Illinois as they took an idea from concept to implementation in 5 months. The idea first began as "create a moving company for State Farm" and morphed into several pieces of technology utilized by our customers including State Farm Move Tools – a mobile application for customers to inventory their homes. Next Door, a State Farm concept facility in Chicago, was also developed out of the State Farm Innovation Team and because of my work with the Young Business Professionals Group, I was able to serve as a thought partner in the development of this collaborative neighborhood space. https://www.nextdoorchi.com/ On a more personal level, I was a co-owner in AfterShock Graphics, a graphic design company based out of Fairbury, Illinois from 2004-2007. This company started as a home-grown one person design company to a company with multiple arms of development and 8-10 employees. I appreciate the opportunity to be part of the Sachse Economic Development Corporation Board. I believe these experiences will allow me to bring another great perspective to an already outstanding board. I look forward to speaking with you further.</p>
